Serial No

To

The Under Secretary, G.O.D
Ministry of Defence
Lr No 28837/Q.3.N/3485/D (Edn Q) 25-4-55
Requests to agree to the reduction from
1/3 to 1/6 maintenance charges of Sewage

51 The question under consideration is to reduce the Renewal and maintenance Cost Payable by the Defence Department (G.O.D) to the Corporation from 1/3 to 1/6 The reason advanced for the reduction, by the G.O.D is that Consumption of Water in any area should have relation with the use of the Sewers, and not on the basis of the expenditure on Water Supply The Consumption of Water by the ~~Military~~ Military Department has been reduced as seen from the statement furnished by the Corporation However true a copy of the letter now received from the G.O.D while be forwarded to the Commissioner ccb for furnishing his views thereon in the first instance For orders subject to reference to Para 4 & 5 supra

No 26837/Q3(W)/6230-A/D Q.
Government of India,
Ministry of Defence,
NEW DELHI, the 21st May 1951

To

The Chief Secretary to the Government of Mysore,
BANGALORE

Subject - RENEWALS AND MAINTENANCE : SEWAGE, BANGALORE

Sir,

I am directed to refer to the late Foreign Department letter No 411-1A dated the 28th January 1905 (copy attached) and to say that under this authority it was agreed that the payment of 1/3rd of the original cost and 1/3rd of annual recurring maintenance expenditure in regard to the sewage system at the Civil and Military Station, Bangalore would be borne by the Defence Services Estimates

2 The military contribution rate of 1/3rd was based on old water consumption figures of the civil and Military population. This is now completely altered as the civil consumption has increased very much A statement showing the civil and military consumption during the years 1939 to 1947 is enclosed

In view of this the payment of 1/3rd share of maintenance and repairs appears to be more than the fair share of the military and it seems equitable that it should be reduced to 1/6th for the future

3 In the circumstances, I am to request the Government of Mysore kindly to agree to the reduction of the maintenance and renewal charges to be borne by the Defence Services Estimates to 1/6th of the total expenditure

4 Without prejudice to the decision on the proposal made in para 3 above, the Government of India have sanctioned the payment of Rs 49,447/- to the Municipal Commission, Civil and Military Stations, Bangalore representing 3rd of the cost of renewal works recently executed by the Commission at a cost of Rs 148340/-

Yours faithfully,

(R S VOHRA)

GOVERNMENT OF MYSORE H B MAY 1951 HOME DEPARTMENT

(2) Pr

Copy of letter No 411-IA dated the 28th January 1905 from under Secretary of State to the Government of India, Foreign Department to the Hon'ble the Resident in Mysore

I am directed to refer to the correspondence ending with your telegram No 5655 dated the 11th November 1904 re a proposal for the improvement and extension of the two principal outfall sewers situated at Ulsoor and Shoolay in the Civil and Mily Stations of Bangalore

2. In the circumstances explained, your recommendation that the project may be carried out from the revenues of the assigned tract is accepted The Government of India are of the opinion that the cost of the works should, be apportioned in the same ratio as was adopted in the case of water supply scheme for the Civil and Military Station, viz , 2/3rd (2/3rd) and 1/3rd to Civil ~~and Military Station~~, works and Military works funds respectively, and that the latter should also be charged with 1/3rd of the maintenance and recurring charges, the balance being met by the Municipality who forms a legitimate charge against Municipal Revenues I am to enquire whether you see any objection to the allotment of expenditure as proposed above

3 It is considered desirable that the work should be carried out by the agency of the Military Works Services, and arrangements are being made accordingly

---

Copy of the foregoing letter is fwd to the Assistant Commanding Royal Engineer, Bangalore Bde with reference to his letter No 1235 dated the 19th February 1908 by the Hon'ble the Resident in Mysore in his le ter No 1123 dated the 24th Feb 1908.

BANGALORE.

SIR,

C.M 136-53-1

Subject - RECOVERY OF ONE-THIRD SHARE PAYABLE BY THE MILITARY WORKS DEPARTMENT ON THE MAINTENANCE OF THE ULSOOR AND SHOOLAY MAIN SEWERS, BANGALORE

Ref - Your letter No 2585 dated 21-6-1951

With reference to the above quoted reference, I write to inform you as follows -

In 1905, the Municipal Commission agreed to meet two-thirds of the maintenance and recurring charges of the Ul[illegible] and Shoolay Main Sewers fro[illegible] the Municipal funds, the balance [illegible]s one-third being met by the Military as proposed and sanctione[illegible] by the Government of India This propotion was based on the [illegible], ratio in respect of the Water Supply expenditure of the Stat[illegible] 9-50 at that time and not on the quantity of water consumed in the [illegible]ar Military area

Ordinarily the Military share towards the maintenanc[illegible] quence charges on account of these sewers does not exceed Rs 3,000/- [illegible], per annum, being Rs 2,800/- during 1949-50 and Rs 2,184/- [illegible]is during the year 1950-51 Only during the year 1948-49 it wo[illegible] uota up so high as Rs 52,771-5-0 as the existing 12" Hume pipe [illegible]arrang[illegible] sewer on Kensington Road was replaced with a C I pipe sewe[illegible] so as As such the amount payable by the Military according to th[illegible]t of the present arrangement is not much

The annual maintenance works for these sewers ar[illegible]eting absolutely necessary in the interest of the general heal[illegible] the Civil

P22 (21)

of the Military areas.

The Military are benefitted by the various amenities afforded by the Corporation without paying taxes which the residents in the non-military area have to pay

In old days the Military was meeting one-third of the Water supply expenditure of the Civil Station when the supply was from Hesserghatta and Yellampalli Tank After the new scheme of supply from Thippagondanahally project came into force, the liability of the Corporation under Water Supply charges is more than double their liability under the old scheme The new scheme has lessened the water supply expenditure for the Military by more than half in addition to the relief they have obtained by handing over the difficult task of the control of the distribution system to the Municipality

Besides, the reduction in the Government grants to the Corporation under several heads has forced the Corporation to effect various economies year after year to balance their budget

In the above circumstances, the Corporation will not be able to burden themselves with the additional expenditure on the maintenance of sewers in question which would result if the proposal of the Military authorities is accepted On the other hand the Corporation legitimately expects a higher quota from the Military on account of increased cost of labour and other charges Proposals for this will be submitted separately

Forwarded with compliments

MAYOR

Yours faithfully,

COMMISSIONER

"Draft" (22)

To

The ~~Under~~ Secretary to the Govt of India,
Ministry of Defence,
NEW DELHI

Sir,

Subject - Renewals and Maintenance -
Sewage - Bangalore

With reference to the correspondence ending with your letter No 26837/Q3 ~~15~~W/2930/D(C&Qtg) dated 22nd July 1953 on the subject, I am directed to state that the Defence Services Quota of 1/3 of the original cost and 1/3 of annual recurring maintenance expenditure in regard to the sewage system at the Civil and Military Station was fixed on the basis of the ratio in respect of the water supply expenditure of the Station at that time and not on the quantity of water consumed in the area

2 The charges on the Defence estimates towards the maintenance of these sewers are ascertained not to exceed Rs 3000/- per annum, the actual amount being Rs 2,800/- during 1949-50 and Rs 2,184/- during 1950-51 During the year 1948-49 it became necessary to replace the 12" Hume pipe sewer on Kensington Road in consequence of which during that year only, the charges payable from out of the Military Works funds went up to so high as Rs 52,771-5-0 The quota payable by the Military under the present arrange ments cannot therefore be said to be much so as to necessitate a revision of apportionment of the charges

3 Formerly, the Military was meeting 1/3 the expenditure on water supply to the Civil

Station Area After the new scheme for supply of water from Thippagondanahalli was put through the liability of the Corporation on this account has actually doubled, while the water supply expenditure of the Military is ~~lessened~~ reduced by ~~not less~~ more than 50%, not to speak of the relief they have been able to secure in handing over the difficult task of the control over the system of distribution to the Municipality. With all these added burdens, the Bangalore Municipal Corporation finds itself unable to shoulder the additional liability involved in your proposal for a re-apportionment of the maintenance and renewal cost of the Bangalore Sewage, which in effect would reduce the Military quota to half its present level The annual maintenance works are absolutely essential in the interest of the general health of the Military Areas which should be attended to without any slackening of efforts As such it would be fair and reasonable that the present sharing of the cost in the proportion of 2/3 1/3 as between the Municipality and the Military is continued

Yours faithfully,

Secretary to Government,
L S G & Planning Departments

Subject. RENEWAL AND MAINTENANCE OF SEWAGE BANGALORE.

Cm 136 53 - 3

Sir,

I am directed to refer to your letter No.L 13870/CM136-53-2 dated the 27th January 1954 and subsequent reminders and to say that military's contribution for maintenance and renewal of sewage at Bangalore at 1/3rd of the toal expenditure on water supply in the station is no longer justified for the following reasons -

(a) The extent of each party's share should in fairness be determined by the extent to which each party uses the sewers It is considered that the extent can be fairly assessed from the number of connections made to the main sewers from the buildings belonging to each party

While the change in the number of connections on the military side is not appreciable compared to those in 1905, the increase in the number of connections on the Civil Side is out of all proportions to that of the Military side Although the exact number of connections is not known, the ration of 6.1 as suggested by the Government of India appears to be reasonable.

(b) The charge on the defence budget is stated to be less than Rs 3,000/- upto the year 1950/51 The Corporation bill for the year 1951/52 was, however, Rs 3,060/12/- Reference to replacement of cost of the 12" Hume pipe sewer on Kensington Road and the charges payable from the Defence Services Estimates going upto Rs 52,771/5/- is not understood. It is considered that for the use that the military is making of the sewers, their contribution cannot be substantially greater than what it was in 1905

(c) The reference made to constructions of new water supply scheme and the reduction of military liabilities as a result of the Corporation taking control over the water distribution system does not appear to have any connection with the contribution towards up-keep of sewers.

2 It is considered that the consumption of water in any area should have a direct relation with the use of the sewers. If this is accepted, a comparison of quantities of water utilised by civil and military consumers should indicate the proportion in which expenses on sewage disposal could be shared A statement of water consumed by military and civil during the year 1948-52 in civil station Bangalore has been obtained from the Corporation Engineer (copy attached for ready reference) It will be seen that the monthly consumption

No 26837/Q3M/3485/D(E&Qtg) dated 25-4-55, from the Under Secretary to the Government of India, Ministry of Defence, New Delhi, to the Secretary to the Government of Mysore, Municipal Branch, Bangalore

Subject - RENEWAL AND MAINTENANCE OF SEWAGE, BANGALORE

I am directed to refer to your letter No L 13870/CH 136-53-2 dated the 27th January 1954, and subsequent reminders and to say that military's contribution for maintenance and renewal of sewage at Bangalore at 1/3rd of the total expenditure on water supply in the station is no longer justified for the following reasons

(a) The extent of each party's share should in fairness be determined by the extent to which each party uses the sewers It is considered that the extent can be fairly assessed from the number of connections made to the main sewers from the buildings belonging to each party

While the change in the number of connections on the military side is not appreciable compared to those in 1905, the increase in the number of connections on the Civil Side is out of all proportions to that of the Military side Although the exact number of connections is not known, the ration of 6 1 as gested by the Government of India appears to be reasonable

(b) The charge on the defence budget is stated to be less than Rs 3,000/- upto the year 1950/51 The Corporation bill for the year 1951/52 was, however Rs 3,060/12/- Reference to replacement of cost of the 12" Hume pipe sewer on Kensington Road and the charges payable from the Defence Services Estimates going upto Rs 52,771/5/- is not understood It is considered that for the use that the military is making of the sewers, their contribution cannot be substantially greater than what it was in 1905

(c) The reference made to constructions of new water supply scheme and the reduction of military liabilities as a result of the Corporation taking control over the water distribution system does not appear to have any connection with the contribution towards up-keep of sewers

2 It is considered that the consumption of water in any area should have a direct relation with the use of the sewers If this is accepted, a comparison of quantities of water utilised by Civil and Military consumers should indicate the proportion in which expenses on sewage disposal could be shared A statement of water consumed by military and civil during the year 1948-52 in Civil Station, Bangalore, has been obtained from the Corporation Engineer (copy attached for ready reference) It will be seen that the monthly consumption of water for military purposes varies between approximately 11 million and 12 million gallons as against 73 million and 95 million gallons used by the civil population giving a proportion of approximately 1 7 to 1 5 This comparison would indicate a contribution of less than 1/6

3 In the circumstances, I am to request that the State Government kindly agree to the reduction of the maintenance and renewal charges to be borne by the Defence Services Estimates to 1/6th of the total expenditure on water supply in the station

1 JUL 1955

CORPORATION OF THE CITY OF BANGALORE

No B 1/53-54

OFFICE OF THE COMMISSIONER,
CORPORATION OF BANGALORE,
Bangalore Dated. 28th June, . 1955.

From

THE COMMISSIONER,
CORPORATION OF THE CITY OF BANGALORE,
BANGALORE

To

THE SECRETARY TO THE GOVT. OF MYSORE,
Education & L S.G Departments,
Bangalore

29 JUN 1955
GOVERNMENT

SIR, Cm 136 53-3

Subject - Sharing the cost of renewal and maintenance of sewage between the Government of India (Defence Ministry) and the Bangalore City Corporation

- -

Adverting to your letter No.L.1751/C M 136-53-4 dated the 20th May 1955 on the above subject, I write to state that the Military contribution at 1/3 share of the original cost and at 1/3rd of the annual recurring maintenance expenditure in regard to the sewage system at the Civil and Military Station, Bangalore was fixed on the basis of the ratio in respect of water supply expenditure of the Station at that time and not on the quantity of water consumed in the area

Though the outflow of sewage water from the Military buildings through the number of sewers scattered all over the Civil and Military Area is small, the military buildings are deriving the benefits and advantages just as those in the Civil Areas and if the military department themselves had undertaken to lay these sewers, the capital expenditure thereof would have been heavy, besides incurring recurring maintenance charges Besides, the military buildings are not also assessed to taxes like other private buildings, although, the former enjoying the amenities etc , whereas the contribution paid by the Military Department is a small sum, which was fixed so long back as in

(40)

in 1905.

Further, the cost of the materials etc , has gone high, with the result that the Corporation has to meet heavy expenditure towards the maintenance charges of all the sewers in the Corporation area including those in the Military area

In the circumstances, it is but fair and reasonable that the present sharing of the cost in the proportion of 2/3 1/3 as between the Corporation and Military should be continued.

Yours faithfully,

(D.R CHENNARUDRAIYA)
COMMISSIONER.

(V P DENNADAYALU NAIDU)

To

The Secretary to Government of India,
Ministry of Defence,
NEW DELHI

Sir,

Subject Renewal and maintenance of Sewage -sharing of the cost between the Defence Department and the Bangalore City Municipal Corporation

Reference Correspondence ending with your letter No 26837/Q3 W/5293/D(E & QTG) dated 27-6-1955

Please refer to your letter read above

I am directed to state that the Military contribution at one-third (⅓) share of the original cost and at one-third of the annual recurring maintenance expenditure in regard to the sewage system at the Civil and Military station, Bangalore, was fixed on the basis of the ratio in respect of water supply expenditure of the station at that time and not on the quantity of water consumed in the area

Though the quantity out flow of sewage water from the military buildings scattered all over the civil and Military area is small, these buildings are deriving the benefits and advantages just as those in the Civil Area If the Military Department itself had undertaken to lay these sewers, the capital expenditure thereof would have been heavy, along with the recurring maintenance charges These military buildings are not also assessed to taxes like other private buildings, although the former enjoy the amenities, ~~where as~~ the contribution paid by the Military Department is also a small sum which was fixed fifty years ago i e, in the year 1905 Now the cost of materials and of labour has gone high, with the result that the Corporation

(4) (43)

has to meet heavy expenditure towards the maintenance charges of all the sewers in the Corporation Area including those in the Military Area

~~As such~~ it would be fair and reasonable that the present sharing of the cost of maintenance of sewage system in the proportion of 2/3 . 1/3 as between the Municipality (Corporation) and the Military Department is continued

Yours faithfully,

Secretary to Government,
Education & L S G Departments

Sir,

Subject Renewal and maintenance of Sewage - Share of the cost between the Defence Department and the Bangalore City Municipal Corporation

Reference Correspondence ending with your letter No 26837/Q3 W/5293/D (E & CTG) dated 27-6-55

Please refer to your letter read above

I am directed to state that the Military contribution at one-third (⅓) share of the original cost and at one-third of the annual recurring maintenance expenditure in regard to the sewage system at the Civil and Military Station, Bangalore, was fixed on the basis of the ratio in respect of water supply expenditure of the station at the time and not on the quantity of water consumed in the area

2 Though the quantity out flow of sewage water from the military buildings scattered all over the Civil and Military area is small, these buildings are deriving the benefits and advantages just as those in the Civil Area If the Military Department itself had undertaken to lay these sewers, the capital expenditure thereof would have been heavy, along with the recurring maintenance charges These military buildings are not also assessed to taxes like other private buildings, although the former enjoy the amenities The contribution paid by the Military Department is also a small sum which was fixed fifty years ago i e , in the year 1905 Now the cost of materials and of labour have gone high, with the result that the Cor-

poration has to meet heavy expenditure towards the maintenance charges of all the sewers in the Corporation Area including those in the Military Area.

3 It would be fair and reasonable that the present sharing of the cost of maintenance of sewage system in the proportion of ⅔ . ⅓ (two-thirds one-third) as between the Municipality (Corporation) and the Military Department is continued.

Yours faithfully,

(B M Krishnan)
Secretary to Government,
Education & L S G Departments.

BANGALORE

SUBJECT RENEWAL AND MAINTENANCE OF SEWAGE AT BANGALORE.

1. I am directed to refer to your letter No 5089/C I 136-53-7, dated the 3rd August 1955 and to state that since the State Government have accepted that the quantity outflow of sewage water from the military buildings is small, there is a strong case for the reduction of the military contribution from 1/3 to 1/6

2. The existing allocation of the cost of maintenance of the sewage system which was made 50 years ago is no longer justified in view of the changed circumstances. Whereas the military requirements have remained almost static, the civil requirements have increased many times more and it does not appear to be fair that any increase in expenditure on civil requirements should be shared by the military

3. It is agreed that the cost of materials and labour has increased, but as the military contribution is not a fixed amount the military share is also correspondingly increased. The Corporation is, therefore adequately compensated for the increase in prices. In regard to the argument that the Military buildings are not assessed to taxes like other private buildings, the military authorities are exempted from paying municipal taxes but even so, they are paying their share in regard to the maintenance of the sewage system. Your argument that had the Military Department undertaken to lay the sewers the capital expenditure would have been heavy alongwith the recurring maintenance charges is not tenable as the project was a joint venture and the Military Department bore 1/3 of the expenditure

4 In view of the above, I am to request the State Government kindly to reconsider the matter and agree to the reduction of the maintenance and renewal charges to be borne by the Defence Services Estimates to 1/6th of the total expenditure on water supply in the station.

Yours faithfully,

K D Bhargava

Note on the Renewal and Maintenance of Sewage and sharing of cost by the Corporation and Defence Department

---

Diary No 7880/111 53

The Under-Secretary to the Government of India, Defence Department, made a reference to the Chief Secretary to the Government of Mysore, on 21-5-1951 to reduce the share of contribution of 1/3rd to 1/6th payable by the Defence Department towards the maintenance of sewage system at Bangalore

The reason advanced for reduction is that the share of contribution was fixed on the basis of water consumption figures of Civil and Military Station and as the Civil consumption of water has increased, the reduction may be to 1/6th

It was replied on 27-1-1954 after obtaining the views of the Corporation, that the payment of the share at 1/3rd is necessary as the ration was fixed on the basis of water supply expenditure and not on the water consumption and secondly the increased liability of the Corporation to supply water from Thippagondanahalli

The final decision of the Defence Department has not yet been received
